It is the Commission's practice to treat submissions as public information, unless there is an express request from a submitter to treat the submission (or part of it) as confidential.

Is your submission confidential? No (My submission is not confidential)

Variation 1: Extension of date for which the current determination applies is a logical approach as it allows time for inquiry into the regulatory framework to be completed.

Option to write your submission Or any comments Variation 2: Removal of mandatory reporting date and the defined requirements and replacing with reporting at the discretion of the commission may led to confusion, add another level of complexity and additional administrative burden for smaller water retailers. While it is appropriate to require reporting, the scope may potentially be quite broad unless of course the "commissioners requests" are to be clearly communicated and targeted at the size of the retailer.
