It is the Commission's practice to treat submissions as public information, unless there is an express request from a submitter to treat the submission (or part of it) as confidential.

Is your submission confidential? No (My submission is not confidential)

I support the proposal to extend the Price Determination to 30 June 2018.

Option to write your submission Or any comments

I also support the proposal to simplify the regulatory reporting requirements, and to reflect those in the Commission's guidelines rather than the Price Determination. The regulatory reporting is a compliance burden on local government and often relates to quite small schemes.

In the case of Port Lincoln, we currently have only two regular 'water customers' and some occasional and minor civil construction users, which triggers the reporting requirement. The great majority of our water scheme output is applied to Council reserves etc and not in the nature of retail activity.
