Subject: Re: Charter of consultation and regulatory practice - review

Good morning,

I have reviewed ESCOSA's latest Charter of Consultation and regulatory practice and approve the document. In the time IO have been working with ESCOSA, I have found the Commission to be respectful of its stakeholders, transparent and honest in answering any questions raised, and genuine in its attempts to be inclusive.

The new charter allows for that to continue. I have no suggestions for any changes.

Sincerely,

Elaine Attwood, AM
