1 Definitions and interpretation

1.1 Words appearing in bold like this are defined in Part 1 of Schedule 1.

1.2 This licence must be interpreted in accordance with the rules set out in Part 2 of the Schedule.

2 Grant of licence

2.1 The licensee is licensed under Part 3 of the Act, and subject to the conditions set out in this licence, to generate electricity using the electricity generating plant as specified in the Annexure.

3 Term

3.1 This licence commences on the date it is issued and continues until it is:

(a) surrendered by the licensee under section 29 of the Act; or

(b) suspended or cancelled by the Commission under section 37 of the Act.

4 Fees

4.1 The licensee must pay the applicable licence fees in accordance with section 20 of the Act.

5 Access

5.1 The licensee must:

(a) in accordance with, and to the extent required by, the Electricity Transmission Code, grant to a network service provider, rights to use, or have access to, those parts of the licensee's electricity generating plant that are interconnected or interface with the network service provider's assets for the purpose of ensuring the proper integrated operation of the South Australian power system and the proper conduct of the operations authorised by the network service provider's transmission licence or distribution licence; and

(b) in the absence of agreement as to the terms on which such rights are to be granted, comply with a determination of the Commission as to those terms.

6 Dispute resolution

6.1 A dispute relating to the granting of rights to use or have access to the interconnecting assets of the licensee's electricity generating plant referred to in clause 5 shall be resolved in accordance with any applicable industry code developed by the Commission for the resolution of disputes.

6.2 Clause 6.1 does not apply to the extent the dispute is subject to resolution in accordance with or under the National Electricity Rules.
7 Compliance with Codes

7.1 The licensee must:
(a) comply with all applicable provisions of the Electricity Transmission Code, the Electricity Distribution Code and the Electricity Metering Code;
(b) comply with all applicable provisions of any other industry code or rule made by the Commission from time to time; and
(c) notify the Commission if it commits a material breach of the Electricity Transmission Code, the Electricity Distribution Code or the Electricity Metering Code within 3 days after becoming aware of that breach.

8 Safety, reliability, maintenance and technical management plan

8.1 The licensee must:
(a) prepare, maintain and periodically revise a safety, reliability, maintenance and technical management plan dealing with matters prescribed by regulation;
(b) obtain the approval of the Technical Regulator:
   (i) to the plan (prior to commencement of the operation of the electricity generating plant to which the plan relates); and
   (ii) to any revision of the plan;
(c) comply with the plan as approved in accordance with clause 8.1(b);
(d) undertake audits of its compliance with the plan from time to time and report the results of those audits to the Technical Regulator, in the form required by the Technical Regulator.

9 Switching manual

9.1 The licensee must:
(a) prepare and maintain an internal switching manual in accordance with the regulations; and
(b) comply with any other requirements relating to switching prescribed in the regulations.

10 National electricity market

10.1 The licensee must hold and comply with the conditions of any registration required under the National Electricity Rules granted by AEMO (or the person responsible for the granting of such registrations under the National Electricity Law or the National Electricity Rules) at all times that such registration is required for the operations authorised by this licence.
11 Information to AEMO

11.1 The licensee must, following a request from AEMO, provide to AEMO such documents and information as AEMO may reasonably require for the performance of its functions.

12 System controller

12.1 The licensee must comply with any directions given to it by the System Controller.

13 Information to the Commission

13.1 The licensee must, from time to time, provide to the Commission, in a manner and form determined by the Commission:

(a) details of the licensee's financial, technical and other capacity to continue the operations authorised by this licence; and

(b) such other information as the Commission may require from time to time.

13.2 The licensee must notify the Commission of any changes to its officers, and (if applicable) major shareholders, within 30 days of that change.

14 Operational and compliance audits

14.1 The licensee must undertake periodic audits of the operations authorised by this licence and of its compliance with its obligations under this licence and any applicable industry codes in accordance with the requirements of any applicable guideline issued by the Commission for this purpose.

14.2 The licensee must also conduct any further audits at a frequency and in manner approved by the Commission.

14.3 The results of audits conducted under this clause must be reported to the Commission in a manner approved by the Commission.

14.4 The Commission may require the licensee to use an independent expert approved by the Commission to conduct audits under this clause.

14.5 The Commission may require the costs of using an independent expert approved by the Commission to conduct audits under this clause to be met by the licensee.

15 Confidentiality

15.1 The licensee must, unless otherwise required by law, this licence, an industry code, or the National Electricity Rules, comply with any rules made by the Commission from time to time relating to the use of information acquired by the licensee in the course of operating the business authorised by this licence.
16 Community service

16.1 The licensee must comply with the requirements of any scheme approved and funded by the Minister for the provision by the State of customer concessions or the performance of community service obligations by the electricity entities.

17 Compatibility

17.1 The licensee must not do anything to its electricity generating plant affecting the compatibility of its electricity generating plant with any distribution network or transmission network so as to prejudice public safety or the security of the power system of which the electricity generating plant forms a part.

18 Insurance

18.1 The licensee must undertake and maintain during the term of this licence insurance against liability for causing bush fires.

18.2 The licensee must provide to the Commission a certificate of the insurer or the insurance broker by whom the insurance was arranged (in a form acceptable to the Commission) to the effect that such insurance is adequate and appropriate, given the nature of the licensee's activities conducted under this licence and the risks associated with those activities.

19 Compliance with laws

19.1 The licensee must comply with all applicable laws including, but not limited to, any technical or safety requirements or standards contained in regulations made under the Act.

20 Variation

20.1 This licence may only be varied in accordance with section 27 of the Act.

21 Transfer

21.1 This licence may only be transferred in accordance with section 28 of the Act.
This licence was issued by the Commission on 14 February 2018.

The COMMON SEAL of the ESSENTIAL SERVICES COMMISSION of South Australia was hereunto affixed by authority of the ESSENTIAL SERVICES COMMISSION and in the presence of:

[Signature]
Commissioner

14 February 2018
Date
Schedule 1: Definitions and Interpretation

Part 1 – Definitions

In clauses 1 to 21 (inclusive) of this licence:

Act means the Electricity Act 1996 (SA).

AEMO means the Australian Energy Market Operator Ltd (ACN 072 010 327).

business day means a day on which banks are open for general banking business in Adelaide, excluding a Saturday or Sunday.

Commission means the Essential Services Commission established under the ESC Act.

distribution licence means a licence to operate a distribution network granted under Part 3 of the Act.

distribution network has the meaning given to that term under the Act.

Electricity Distribution Code means the code of that name made by the Commission under section 28 of the ESC Act which regulates connections to a distribution network and the supply of electricity by distributors.

electricity generating plant includes all generating units and all other equipment involved in generating electrical energy authorised to be operated by the licensee under this licence.

Electricity Metering Code means the code of that name made by the Commission under section 28 of the ESC Act which regulates the installation, maintenance and testing of meters.

Electricity Transmission Code means the code of that name made by the Commission under section 28 of the ESC Act.

ESC Act means the Essential Services Commission Act 2002 (SA).

generator means a holder of a licence to generate electricity granted under Part 3 of the Act.

generating unit has the same meaning given to the term under the National Electricity Rules.

industry code means any code made by the Commission under section 28 of the ESC Act from time to time.

licensee means Peterborough Solar Farm Pty Ltd (ABN 14 620 793 133).

National Electricity Rules has the meaning given to that term in the National Electricity Law.

National Electricity Law means the National Electricity Law referred to in the National Electricity (South Australia) Act 1996 (SA).

network service provider means the holder of a distribution licence or a transmission licence (as the case may be) issued by the Commission under Part 3 of the Act.

rule means any rule issued by the Commission under section 28 of the ESC Act.
System Controller means the person licensed under Part 3 of the Act to exercise system control over a power system.

Technical Regulator means the person holding the office of Technical Regulator under Part 2 of the Act.

Transmission licence means a licence to operate a transmission network granted under Part 3 of the Act.

Transmission network has the meaning given to that term under the Act.

Part 2 - Interpretation

In this licence, unless the context otherwise requires:

(a) headings are for convenience only and do not affect the interpretation of this licence;

(b) words importing the singular include the plural and vice versa;

(c) words importing a gender include any gender;

(d) an expression importing a natural person includes any company, partnership, trust, joint venture, association, corporation or other body corporate and any governmental agency;

(e) a reference to any statute, regulation, proclamation, order in council, ordinance or bylaw includes all statutes, regulations, proclamations, orders in council, ordinances or by-laws varying, consolidating, re-enacting, extending or replacing them and a reference to a statute includes all regulations, proclamations, orders in council, ordinances, by-laws and determinations issued under that statute;

(f) a reference to a person includes that person’s executors, administrators, successors, substitutes (including, without limitation, persons taking by novation) and permitted assigns;

(g) a reference to a document or a provision of a document includes an amendment or supplement to, or replacement or novation of, that document or that provision of that document; and

(h) an event which is required under this licence to occur on or by a stipulated day which is not a business day may occur on or by the next business day.
ANNEXURE

The solar generating plant consisting of:

- Two 2,750kVA solar photovoltaic SMA inverters, and

with a generation export capacity capped at 4.9MW, located at Lot 1 Beniah Rd, Peterborough, South Australia.
