Adelaide, South Australia, 5001

By email: [Julie.Dixon@escosa.sa.gov.au](mailto:Julie.Dixon@escosa.sa.gov.au)

Dear Mr *Adam* Wilson,

**Re: Assurance of Commitment to Compliance with REES obligations**

I refer to the Commission's determination and notification dated 3 July 2019, regarding EnergyAustralia's failure to achieve one of its six energy efficiency targets in 2018.

EnergyAustralia is committed to complying with its REES obligations and has identified additional actions to further raise awareness of the scheme amongst our South Australian customers and to support achievement of our 2019 REES targets, including the shortfall amount added to our electricity priority group energy efficiency target.

EnergyAustralia has developed an engagement plan, included with this letter, which sets out the opportunities and strategies identified for priority group customers to engage EnergyAustralia to carry out energy efficiency activities during the balance of the 2019 REES year.

A monthly report will be provided to the Commission for the balance of 2019, setting out progress towards the adjusted 2019 REES electricity priority group energy efficiency target.

If you would like any further information, please contact Melinda Green on 03 8628 1242.

Yours sincerely,

Catherine Tanna  
Managing Director
