**Re: Electricity Transmission Connection to Prominent Hill/Carrapateena - Reliability Standard**

Dear Sir,

OZ Minerals refer to the correspondence received from the Essential Services Commission of South Australia (**ESCOSA**) regarding the construction of a new electricity connection at Davenport and the electricity transmission services to OZ Minerals' Prominent Hill and Carrapateena Project.

In response to ESCOSA's correspondence OZ Minerals advises:

1. OZ Minerals accept the proposal for a Category 1 connection for the new Davenport-MGS 275kV exit point at Davenport Substation.
2. Category 1 is consistent with our Transmission Connection Agreement with ElectraNet.

Sincerely,

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke extending to the right.

**Harvey Fernandez**
