

In your report ESCOSA states that Robusto Pty Ltd financial loan was taken over 15 year when the life span of major assets still has a life span of 30 years. If the loan was taken over a period of 30 years this would result in a positive cash flow benefit so why do we have to be put in financial hardship for the financial profiteering of Robusto Pty Ltd.

I am at the understanding that ESCOSA are to support the supply of essential services to all householders but this doesn't seem to be the case of Mount Compass Residents.

As a community we have voiced our opinions for 4 year to ESCOSA and you responded by tell us in the public meeting that we continue to pay the same price structure as our contract states which we are by adjusting our bill to be in line with SA water prices, causing a debt in Robusto Pty Ltd accounts.
