<b>Option to write your submission Or any comments:</b>	<p>As a stakeholder in the Cape Jaffa Marina, I must strongly object to the attempt by management to change the water licence to enable them to provide non potable water to the settlement.</p> <p>Everybody who has invested in the Cape Jaffa Marina has done so with the knowledge that potable water was supplied to all housing blocks. Many people rely solely on the water supply. Some have limited quantities of rain water, but there was never any suggestion that residents would need to provide their total water needs.</p> <p>Apart from the obvious inconvenience and expense to individuals who have to make major plumbing alterations, there is also the obvious threat to real estate values .</p> <p>This attempt by Cape Jaffa management appears to be a cheap, and somewhat underhanded way of fixing the problem from their point of view and must be resisted.</p> <p>Bill Stock [REDACTED] Cape Jaffa.</p>
