<b>Option to write your submission Or any comments:</b>	Resident of ██████████ Cape Jaffa I'm extremely disappointed in the Developers attitude towards the marina! We bought with the faith that the essential services would be in place which includes good drinking water. We do not have provision in our plumbing to change the water flow into the house & there is limited space for rainwater tanks. This set back will also have a ripple effect on the whole progress of the marina. There is still blocks not built on & this could lead to people not wanting to invest in the area, which will lead to values seriously compromised. What happens when the water plant breaks down and needs serious repair will they not want to fix that too! NOT AT ALL HAPPY!
