Option to write your submission Or any comments:	I would like to express my displeasure and disappointment on the proposed variation of the CJAES water licence.. We have just completed a new build on the Cape Jaffa marina and weren't aware of these changes when considering what size rainwater tank our new house required? This change to the water licence will affect all households on the marina considering most blocks aren't big enough to accomodate enough rainwater storage for an average household. The proposed variation will also restrict any new retail business looking at starting up on the marina. Please register our complaint against the proposed variation of the water licence
