Option to write your submission:	I object to the last pricing determination from ESCOSA about Compass hSprings. I am a customer of Compass Springs and our bills are very high compared to other friends who are with SA Water. There doesn't seem to be any good reason for this - out water is great here in Mt Compass and all the customers of Compass Springs are quite close, you can easily walk it. For someone with a young family really high water bills have an impact - but then again, how can you get by without water?
