Re. Water Supply to Dunoon.

Dear Sirs,

The water supply to Dunoon  
& district leaves a lot to be desired.

I am an 82yr old pensioner  
who has lived in Dunoon all my life.  
My father was the boring contractor  
who sunk the artesian bore outside of  
Dunoon.

The water in the town is not  
suitable for drinking. I would say  
that if you lived here you would not  
drink it. If it doesn't rain there is  
no rainwater.
