Subject: FW: ORROROO WATER QUALITY PROJECT

Dear Sir,

We are writing to you, as long time residents of Orroroo, with the request that you overturn your decision not to fund the pipeline extension from Peterborough to Orroroo.

Due to the poor quality of water provided to the Orroroo district, we have been forced over many years to increase the number of water tanks installed on our property; to replace plumbing fittings and electrical appliances; and to decrease the area of garden surrounding our home. This has not only affected us primarily as residents but has also affected us secondly, through our public services such as the hospital and area school.

An improved water supply to Orroroo would be an incentive for business and industry to develop in our district, and in turn SA Water would benefit by the extra revenue that it would receive.

At the recent public meeting held in Orroroo, we were given the opportunity to sample the water which the pipeline would bring to our town and we would be delighted and have no hesitation in drinking this water.

Thank you for taking the time to consider our submission and we look forward to a positive outcome.

Yours sincerely,

Colin & Rita Anesbury
Orroroo SA 5431
