Subject: ORROROO WATER QUALITY PROJECT

Dear Sir,

We wish to make it known that as residents of Orroroo, we strongly urge the Commission to overturn its decision not to support the above Project.

We have completed the two surveys issued by our Council, and attended the public meeting held on Tuesday 23rd February 2016. There is no doubt in our minds that we want and need high quality water in Orroroo. We truly appreciate all that our Council has done over the past 16 years to try and bring this about, and as newer residents to Orroroo, can feel their frustration but also respect their determination.

At the public meeting on 23rd February 2016 we were given the opportunity to taste water from various sources, and have no doubt that when we are connected to Peterborough's water supply, we will definitely take pleasure in drinking it!

Filtered water sourced from the River Murray will not only benefit us in our homes, but also the services that are connected to our community, e.g. the hospital, community home and area school (including the kindergarten). The local caravan park will no longer have to advise tourists to our area "not to drink the water", and a potable water supply will encourage new residents and industry to our district.

Yours truly,

Alan & Janet Broadstock
