Subject: Orroroo water quality project

Dear whom it may concern,

I'm emailing you in regards about our awful water quality.

Our water is disgusting
You can not wash your car with it, it will destroy your paint work It's gross to drink

We really need a pipeline, so we can have delightful water source That won't ruin paint work & taps & hot water systems We need a pipeline so we can have pleasant water to drink & wash our clothes in

We currently have 4 water jugs in the fridge that have filters in them So we can use our little amount of rain water to drink.

This town & surrounding districts needs this pipeline

Kind regards
Racheal Byerlee
