Esosa

Box 2605

Laolaide, S.A. 5001.

Dear Sir,

I am writing in reference to "ORREROO WATER QUALITY PROJECT" This project would be a big Asset to the township of Erreroo.

The use of Quality water would be used much more especially for gardens, home hold use, showers, washing, and outside general use.

The present water is not suitable for hot water systems, or anything electrical. It corrodes and burns the container out, which Quality water we could use equipment safely. The township would use more water for gardens, home hold use and Council Activities. The school, hospital & businesses would use more if it was Quality water, thus bring more revenue for S.A. water.

This would be continually use, and would be a wonderful Asset for the Erreroo township.

Yours faithfully,  
J. E. Hombach
