

REVIEW OF WATER METER ARRANGEMENTS

Terms of Reference-Section 99 of the Water Industry Act 2012

5 December 2012

99—Report on installation of separate meters on properties

(1) *The Commission must undertake a cost benefit analysis of implementing a scheme designed to ensure, so far as is reasonably practicable, that—*

(a) all land—

(i) that is owned by the South Australian Housing Trust or another agency or instrumentality of the Crown; and

(ii) that is used for residential purposes; and

(iii) that is supplied with water by a water industry entity as part of a reticulated water system; and

(b) any other land the Commission determines to include in the analysis, will have a meter that records the amount of water supplied to that piece of land.

(2) *The scheme for the purposes of the analysis must address—*

(a) the fitting of meters to premises existing at the time of the publication of the report (insofar as meters are not fitted); and

(b) the fitting of meters to premises constructed after the publication of the report.

(3) *The Commission must prepare and publish a report on the analysis by 30 June 2013.*

The Essential Services Commission is the independent economic regulator of essential services in South Australia with the primary objective of protection of the long-term interests of consumers.
