I want the South Australian Government to ensure a fair price for the power solar households and small businesses generate in SA.

I call for the South Australian Government to legislate a fair feed-in tariff for all solar owners.

Retailers should not be allowed to set their own tariffs. There should be regulated feed-in tariff premiums in SA. The evidence in NSW shows that deregulated feed-in tariffs reduce choice for consumers and competition between retailers - leaving consumers at the mercy of retailers.

South Australia has already established a place as the leading solar state in Australia. Please ensure all solar owners in South Australia get a fair go.

Sincerely,
