Purpose of this form

This form is to be completed by persons making an application to the Essential Services Commission of South Australia (the **Commission**) for the issue of a licence to provide a retail service (or undertake any other activity for which a licence is required by the regulations) in the water industry in South Australia.

The Commission may consider joint applications from two or more persons who wish to hold a licence jointly. Persons making joint applications must ensure that each of the applicants completes a separate application form together with a covering letter explaining that the application is for a licence to be jointly held.

Basis for this form

Section 19(1) of the *Water Industry Act 2012* (the **Act**) provides that an application for the issue of a licence must be made to the Commission in a form approved by the Commission. This is the form approved by the Commission.

Use of this form and applicant's responsibility

For the purpose of this application form, a reference to the term "Officer" include the applicant's directors and secretary, and/or other persons who make or participate in making decisions that affect a substantial part of the business of the applicant (e.g. Chief Executive Officer, Chief Financial Officer, General Manager etc.).

Applicants should list the information requested in the spaces provided in this form and enclose additional information when required. Applicants must take all reasonable steps to ensure the information provided in the application form is complete, true and correct and are required to make a declaration to that effect. Failure to disclose information or misrepresent any matter relevant to such information may result in a licence not being issued or in the suspension or cancellation of a licence at a later time.

Applicants are responsible for providing the Commission with current, accurate and relevant information. This will ensure that the application is processed promptly and without delay. All applications are assessed on a case-by-case basis. If insufficient information is provided with an application, the Commission will request additional information to be submitted before the application is considered further. This may cause delays in the assessment of the application.

Prior reading

It is essential that licence applicants read the Commission's Water Bulletin – "*Licensing Arrangements for the Water Industry*" before they fill out this form. This Bulletin is available on the Commission's website www.escosa.sa.gov.au under water/licensing. Applicants should also familiarise themselves with the regulatory obligations set out in the Act and the Water Retail Code that will apply to entities that provide retail services.

Licence conditions

Section 25 of the Act requires the Commission to impose certain conditions in licences. The Commission strongly recommends that applicants review these mandatory conditions. Applicants must be familiar with the relevant conditions and be confident that they can comply with the conditions. The Commission will have regard to the scale and nature of the operations undertaken by an applicant in imposing these conditions and will be available to consult with an applicant in this regard.

Consultation and Confidentiality

The Commission will consult with relevant government, industry and consumer groups in the conduct of its licensing functions through a public consultation process. Consequently, applications and/or supporting information will be made available on the Commission's website and in hard copy from the Commission's office for this purpose.

If applicants believe that they are providing confidential information when completing this form they should write "this information is confidential" after any such information. It is the applicant's responsibility to ensure this is clearly highlighted on the form. Applicants should also provide a 'non-confidential' version of the form capable of publication on the Commission's website.

The Commission will use information supplied in applications and in support of applications in accordance with the requirements of Part 5 of the *Essential Services Commission Act 2002*. 4. FACTORS SPECIFIED IN THE ESSENTIAL SERVICES COMMISSION ACT 2002

In considering a licence application, the Commission must have as its primary objective the protection of the long term interests of consumers with respect to the price, quality and reliability of essential services, and must also have regard to the need to:

- a) promote competitive and fair market conduct;*
- b) prevent misuse of monopoly or market power;*
- c) facilitate entry into relevant markets;*
- d) promote economic efficiency;*
- e) ensure consumers benefit from competition and efficiency;*
- f) facilitate maintenance of the financial viability of regulated industries and the incentive for long term investment;*
- g) promote consistency in regulation with other jurisdictions.*

If the applicant believes that information about their application would assist the Commission in its consideration of these factors, the applicant should provide such information below.

Most of the townships on regional South Australia are provided with wastewater services by Local Government through various forms of CWMS. Councils did not “choose” to become involved in the provision of wastewater services as historically this was the role of the South Australian Engineering & Water Supply Department (E&WS) and subsequently SA Water under the Sewerage Act 1929.

From the early 1960’s the State Government sought to encourage Councils to construct a cheaper form of communal drainage in regional towns based on linking existing septic tanks.

The then Local Government Act 1934 was amended to provide Councils with the necessary powers to construct and charge for these schemes. Councils were provided with financial subsidies and technical assistance originally by the Department of Health and subsequently the Department of Local Government and the E&WS. The LGA agreed to take over the management of the State Government subsidy program in 2005. Over time 39 Councils manage more than 170 separate CWMS.

In regional areas, the provision of CWMS was a public service provided by a Council when the State Government water utility was unwilling to do so, presumably on the basis of scale and economic considerations.

It should be noted that the State Governments water security plan, ‘Water for Good’ sets ambitious targets for the harvesting and recycling of stormwater in the Greater Adelaide and regional areas. The vast majority of stormwater

harvesting is undertaken by Councils and it would be a perverse policy outcome if Councils were confronted with a regulatory regime which created disincentives for harvesting, recycling and sale of stormwater resources.

5. APPLICATION FEES

Applicants for a licence must pay the Commission an application fee which is fixed by the Treasurer. Please enclose this fee with the application. An application cannot be considered until this fee has been received.
