Application form for the issue of a licence by the Essential Services Commission of SA under the Water Industry Act 2012

Application Form

INFORMATION FOR APPLICANTS BEFORE FILLING OUT THIS FORM

Purpose of this form

This form is to be completed by persons making an application to the Essential Services Commission of South Australia (the **Commission**) for the issue of a licence to provide a retail service (or undertake any other activity for which a licence is required by the regulations) in the water industry in South Australia.

The Commission may consider joint applications from two or more persons who wish to hold a licence jointly. Persons making joint applications must ensure that each of the applicants completes a separate application form together with a covering letter explaining that the application is for a licence to be jointly held.

Basis for this form

Section 19(1) of the *Water Industry Act 2012* (the **Act**) provides that an application for the issue of a licence must be made to the Commission in a form approved by the Commission. This is the form approved by the Commission.

Use of this form and applicant's responsibility

For the purpose of this application form, a reference to the term "Officer" include the applicant's directors and secretary, and/or other persons who make or participate in making decisions that affect a substantial part of the business of the applicant (e.g. Chief Executive Officer, Chief Financial Officer, General Manager etc.).

Applicants should list the information requested in the spaces provided in this form and enclose additional information when required. Applicants must take all reasonable steps to ensure the information provided in the application form is complete, true and correct and are required to make a declaration to that effect. Failure to disclose information or misrepresent any matter relevant to such information may result in a licence not being issued or in the suspension or cancellation of a licence at a later time.

Applicants are responsible for providing the Commission with current, accurate and relevant information. This will ensure that the application is processed promptly and without delay. All applications are assessed on a case-by-case basis. If insufficient information is provided with an application, the Commission will request additional information to be submitted before the application is considered further. This may cause delays in the assessment of the application.

Application Form

Prior reading

It is essential that licence applicants read the Commission's Water Bulletin – "*Licensing Arrangements for the Water Industry*" before they fill out this form. This Bulletin is available on the Commission's website www.escosa.sa.gov.au under water/licensing. Applicants should also familiarise themselves with the regulatory obligations set out in the Act and the Water Retail Code that will apply to entities that provide retail services.

Licence conditions

Section 25 of the Act requires the Commission to impose certain conditions in licences. The Commission strongly recommends that applicants review these mandatory conditions. Applicants must be familiar with the relevant conditions and be confident that they can comply with the conditions. The Commission will have regard to the scale and nature of the operations undertaken by an applicant in imposing these conditions and will be available to consult with an applicant in this regard.

Consultation and Confidentiality

The Commission will consult with relevant government, industry and consumer groups in the conduct of its licensing functions through a public consultation process. Consequently, applications and/or supporting information will be made available on the Commission's website and in hard copy from the Commission's office for this purpose.

If applicants believe that they are providing confidential information when completing this form they should write "this information is confidential" after any such information. It is the applicant's responsibility to ensure this is clearly highlighted on the form. Applicants should also provide a 'non-confidential' version of the form capable of publication on the Commission's website.

The Commission will use information supplied in applications and in support of applications in accordance with the requirements of Part 5 of the *Essential Services Commission Act 2002*. Applicants claiming confidentiality are encouraged to familiarise themselves with Part 5. Applicants should note that the Commission may be required to disclose confidential information in some circumstances.

Application Form

How to lodge an application

Applicants should send their completed application form in writing and electronically.

In writing to: Essential Services Commission of SA
 GPO Box 2605
 Adelaide SA 5001

Electronically to: licensing@escosa.sa.gov.au

Application fee

Applicants must also enclose an application fee (which is to be set by the Treasurer) with their application. This fee must be received by the Commission in cleared funds before it can commence assessing an application.

Annual licence fee

Holding a licence incurs an annual licence fee. The licence fees are set by the Treasurer, however, are collected by the Commission. At annual intervals, the Commission, on behalf of the Department of Treasury and Finance, will send to each licensee an invoice for the relevant annual licence fee. Licence fees are to be paid on receipt of an invoice via one of the payment options set out in the invoice.

A licence cannot be issued until the first annual licence fee has been paid.

1. THE APPLICANT

Applicants must answer all questions in this section.

1.1. Identity of applicant

State the full name of the applicant. The applicant should be the person/entity that will be providing a retail service (e.g. retail or distribution operations etc). The Commission can also consider joint applications from two or more persons who wish to jointly hold the licence. Joint applicants should each complete an application form, and submit their application forms at the same time, with a covering letter explaining that a joint application is being made.

2. THE LICENCE

Applicants must answer all questions in this section.

2.1. *A detailed description of the retail services for which a licence is sought*

For example:

Water: drinking- residential and/or non-residential;

Water: non-drinking – residential and/or non-residential;

Sewerage: residential and/or non-residential; and

Sewerage – trade waste – non-residential.

Applicants should provide detailed information in respect of where the retail services will be provided and to whom (i.e. type and number of customers)

Application is made for a licence that will authorise all water and / or sewerage services provided by the District Council of Yorke Peninsula. An inventory of all CWMS Schemes and assets and their location is provided in Appendix 1.1 of Council's CWMS Infrastructure Asset Management Plan. Both residential and non-residential customers in those areas are connected to the sewerage service.

Council's sea water desalination plant is located at Marion Bay. A 15 metre beach well feeds a controlled supply of seawater to the plant.

The plant produces and provides a primary potable water supply to Council's public toilets, the Marion Bay Caravan Park, Marion Bay Tavern, Marion Bay Motel and Marion Bay Seaside Apartments. An inactive supply line has also been installed to the Marion Bay General Store. A secondary potable water supply is available to the Marion Bay community via a permit and swipe-card dispenser system. The water is dispensed from a Moneco water pumping station located at the Marion Bay desalination plant.

.....

2.2. *Date from which Licence is sought*

If the applicant seeks to have the licence issued by a certain date, provide this date. Please note that the Commission does not undertake to issue the licence by this date. Applicants should usually allow the Commission a minimum of eight weeks to consider an application, as a public consultation period of several weeks forms part of the Commission's consideration of licence applications.

From the 1st of January 2013.....

3. SUITABILITY OF APPLICANT TO HOLD A LICENCE

Applicants must answer all questions in this section.

3.1. *Standard of honesty and integrity shown by applicant*

In deciding whether the applicant is a suitable person to hold a licence, the Commission may:

- *consider the applicant’s previous commercial and other dealings, and*
- *the standard of honesty and integrity shown in those dealings.*

Please provide information that will assist the Commission in its consideration of this matter. If the applicant:

- *has been found guilty of any criminal offence,*
- *has been successfully prosecuted under any Territory, State or Commonwealth legislation (such as the Australian Securities and Investments Commission Act 2001 or the Competition and Consumer Act 2010); or*
- *has been the subject of disciplinary action,*
- *details of such matters must be disclosed. Failure to disclose such information or misrepresent any matter relevant to such information may result in the cancellation of a licence.*

The Commission may use the service of an external expert to assist with the assessment of the applicant’s standard of honesty and integrity.

The Council has not been convicted of any criminal offence. The Council has never been prosecuted under any State or Commonwealth legislation. The Council welcomes any further investigation by the Commission.....

.....

3.2. *Standard of honesty and integrity shown by officers and major shareholders (if relevant) of the applicant*

Applicants should address responses to this question in the same manner as 3.1 above.

Council’s Elected Members and CEO have not been convicted of any criminal offence or ever been prosecuted under any State or Commonwealth legislation. Again, further investigation welcomed.....

3.10. Contracts

Applicants must provide reasonable evidence that they are able to meet reasonably foreseeable obligations under contracts for the sale and supply of water or the sale or supply of sewerage services (or both) as the case may be. Such contracts would include contracts whereby the applicant is reliant on a supply of water or specific sewerage service from a third party which is intends to on sell to its customers.

Application form for the issue of a licence by the Essential Services Commission of SA under the Water Industry Act 2012

Application Form

Council does not have any contracts in place for the sale or supply of water.

CWMS Infrastructure Asset Management Plan provides details on how Council intends to meet its obligation to provide a sewerage service to customers, in particular, renewal and maintenance.

The quantity of water available from Council's desalination plant has been supplied to its customers with the understanding that it is a restricted supply. Council are unable to guarantee the amount of water supplied by the desalination plant because of the potential for reduction in the quantity of water available or an increase in demand as provided for in Council's Desalination Plant Policy. Council's financial commitment is demonstrated in Council's financial statements.

3.11. *Suitable and appropriate infrastructure*

The Commission may not issue a licence unless it is satisfied that the infrastructure to be used in connection with the relevant service is appropriate for the purposes for which it will be used. Applicants are therefore asked to provide a detailed description of the infrastructure that will be utilised by the applicant in providing the retail services for which the licence is sought and verify that the infrastructure has been (or will be) developed in accordance with relevant Australian Industry Codes and Australian Standards with reference to technical specifications or reports.

If an applicant does not own the infrastructure to be used in delivering the relevant retail services, the applicant must provide information regarding the appropriateness of that infrastructure and of the binding arrangements that are (or will be) in place with the owner of the infrastructure in regards to the use of the infrastructure.

All CWMS and desalination plant infrastructure has been developed and installed in accordance with all with all legislative requirements, meet all Australian, technical and safety standards, are licenced by the EPA and are fit for purpose. Council have a regular management/maintenance program in place to ensure continued compliance. A detailed description of the infrastructure utilised to provide the sewerage service is provided in CWMS Infrastructure Asset Management Plan.

3.12. *Risk management*

Provide confirmation and reasonable evidence that the applicant's management has identified the risks associated with the retail services it intends to provide and has established, utilises and relies upon risk management systems and processes which are adequate, accurate and current to address those risks. A copy of the applicant's risk management strategy should be submitted.

Council's risks are assessed and managed in accordance with its Risk Management Policy. Annual workplace inspections are carried out in accordance with Council's Workplace Inspection Policy. Council continue to monitor and test all water in accordance with EPA and DoH requirements against stringent water quality criteria. Council's CWMS Infrastructure Asset Management Plan and Desalination Plant Policy refer.

Application Form

and the Water Retail Code. The Commission expects that a Compliance Program will, as a minimum, document:

- *the obligations that will apply to the applicant;*
- *the processes that are (or will be) in place to ensure the applicant's compliance with obligations;*
- *details on how compliance is monitored;*
- *details of how non-compliance will be reported and rectified; and*
- *details of any internal audit programs in place that review (or will review) the effectiveness of the Compliance Program from time to time.*

In addition to the CWMS Infrastructure Asset Management Plan and Desalination Plant Policy, Council have dedicated suitably trained and experienced staff to the monitoring of all water and sewerage services provided by Council in accordance with all regulatory obligations. Details of all inspections and testing are formally recorded into appropriate Council registers and non-compliances are appropriately report and managed.

Council intends to build on its existing plans/policies to provide further detail in consideration of the safety, maintenance and technical management regulatory obligations imposed by the Water Industry Act 2012, the licence and Water Retail Code. Council is also expanding its existing internal control program to incorporate its water and sewerage services to review ensure the effectiveness of the Compliance Program.

3.17. Additional information

The Commission encourages applicants to provide any additional information they consider would be of assistance in supporting the application. Please provide below.

The first effluent system began operation in Maitland in around 1968 and Council have continued to introduce systems throughout its community.

The Desal Plant has been in operation since the 4th of June 2007.

There have been no reportable incidents to the EPA, DoH or SafeWork SA during this time.

Council undertakes consultation on the draft annual business plan each year in accordance with all legislative requirements.

In addition to the documentation provided above, Council's Strategic Plan clearly demonstrates its commitment to sustainability, improved water infrastructure and service delivery and opportunities for waste water reuse.

4. FACTORS SPECIFIED IN THE ESSENTIAL SERVICES COMMISSION ACT 2002

In considering a licence application, the Commission must have as its primary objective the protection of the long term interests of consumers with respect to the price, quality and reliability of essential services, and must also have regard to the need to:

- a) promote competitive and fair market conduct;*
- b) prevent misuse of monopoly or market power;*
- c) facilitate entry into relevant markets;*
- d) promote economic efficiency;*
- e) ensure consumers benefit from competition and efficiency;*
- f) facilitate maintenance of the financial viability of regulated industries and the incentive for long term investment;*
- g) promote consistency in regulation with other jurisdictions.*

If the applicant believes that information about their application would assist the Commission in its consideration of these factors, the applicant should provide such information below.

Most of the townships in regional South Australia are provided with wastewater services by Local Government through various forms of CWMS. Councils did not “choose” to become involved in the provision of wastewater services as historically this was the role the South Australian Engineering and Water Supply Department (E&WS) and subsequently SA Water under the Sewerage Act 1929.

From the early 1960s the State Government sought to encourage Councils to construct a cheaper form of communal drainage in regional towns based on linking existing septic tanks.

The then Local Government Act 1934 was amended to provide Councils with the necessary powers to construct and charge for these schemes. Councils were provided with financial subsidies and technical assistance originally by the Department of Health and subsequently by the Department of Local Government and the E&WS. The LGA agreed to take over the management of the State Government subsidy program in 2005. Over time 39 Councils manage more than 170 separate CWMS.

In regional areas, the provision of CWMS was a public service provided by a Council when the State Government’s water utility was unwilling to do so, presumably on the basis of scale and economic considerations.

It should be noted that the State Government’s water security plan, “Water for Good”, sets ambitious targets for the harvesting and recycling of stormwater in the Greater Adelaide and regional areas. The vast majority of stormwater harvesting is undertaken by Councils and it would be an unreasonable policy outcome if Councils were confronted with a regulatory regime which created disincentives for harvesting, recycling and sale of stormwater resources.
